FOREWORD

The Kenya Institute of Curriculum Development (KICD) is mandated to advise the Government of Kenya (GoK) on matters pertaining to curriculum development. One of KICD's specific functions is to develop, review and approve programmes, curricula and curriculum support materials that meet international standards for all levels of education, below the University.

In this context, the GoK adopted the Competency Based Curriculum (CBC) which was conceptualised and developed by KICD whose implementation started in 2019 with the Early Years of Education (Pre-Primary school and Lower Primary). The first cohort of CBC learners are currently at Grade 7 of Juniors School. The CBC vision is to produce engaged, empowered and ethical citizens with emphasis on nurturing every learner's potential. The Curriculum aims at developing seven key competencies through various learning areas at all levels. These include: Communication and collaboration, creativity and imagination, critical thinking and problem solving, citizenship, self-efficacy, learning to learn and digital literacy.

In the CBC, one of the learning areas that has been given prominence in the Early Years of learning is Indigenous Language (**IL**) as an important step in nurturing learners' communication and collaborative skills within their social-cultural contexts as provided for in the Kenyan goals of Education. This effort is also in tandem with the Language in Education Policy which stipulates that the medium of instruction in Early Years Education (EYE) should be the learner's first language. Accordingly, KICD has developed a *Learner's Book* and *Teachers' Guide* for Grade 1 learners in a number of indigenous languages in Kenya. The Learner's books are intended to facilitate systematic learning of listening, speaking, reading and writing skills in the target language. The Teachers Guide should be used alongside the learner's book for and is intended to provide a set of methods, techniques, suggested experiences and resources that will facilitate learning and make it interesting for learners at this level.

On behalf of the KICD Council, Management and Staff, I wish to most sincerely thank everyone who contributed to the writing of this Teacher's

Guide in one way or the other. Indeed, the guide is a testament of your invaluable sacrifice. A lot of appreciation also goes to the Development partners who contributed to the funding of the programme that made the writing and distribution process possible; in particular, the World Bank thorough the Kenya Primary Education Equity in Learning Programme (KPEELP. Ultimately, we are very thankful to the Principal Secretary, State Department for Basic Education and the Cabinet Secretary for Education for their invaluable guidance and support to the Institute.
